April 15, 2016

Dear Sir or Madame:

I am writing this letter to acknowledge the services I received last month from the Jewish Family Services who helped me and my family with our light bill.

The services they provided to me came at the moment in our live. It meant so much to me and my family to be able to turn on the light when we needed it the most during the cold winter or using the stove to cook a warm meal for my family.

Without their help with paying my light bill I would not have been able to turn on my heat or to cook warm meal. I know there are so many other families out there that are just like mines in need of help and I am grateful the Jewish Family Services choose to help me and mines family.

Very truly yours,

Althea Brown
